

### Installing on a wall \*Please refer to the image in each step during installation

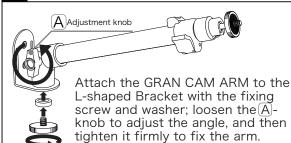

#### Installation of L-shaped Bracket

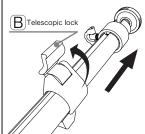

Install the L-shaped Bracket or the wall near the GRANBOARD with tapping screws.

\*Please install it on a thick wood wall or a wall with a column behind it. If the product is mounted on a hollow wall, such as Drywall, it may fall out due to the weight of it.

# Installing the GRAN CAM ARM

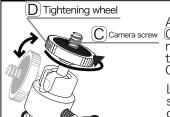

# Adjusting the telescopic arm

Unlock Band adjust the length of the arm. Once set to the appropriate length, close B to secure.

#### Mounting the GRAN CAM and adjusting the mount

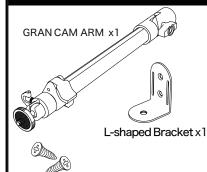

Attach the GRAN CAM to the Camera screw on the mount. 3-4 threads in, turn the D wheel to secure the GRAN CAM to the mount.

GRAN BOARD

Loosen the Eadjustment screw to adjust the orientation of the GRAN CAM.

(E) Adjustment screw

## Contents

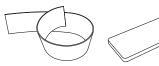

tapping screws x2

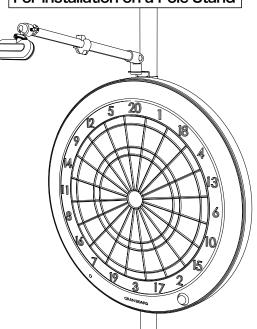

Fixing screw & washer x1

#### Accessories for Pole Stand

Velcro band x1 Cushion Sponge x1

#### For installation on a Pole Stand

Remove the protective paper from the sticker and attach the cushion sponge to the L-shaped stay.

Align the L-shaped stay with the pole stand and thread the two ends of the Velcro band through the two vertical grooves on the L-shaped stay.

While tightening both ends of the Velcro band, wrap one end around the pole and the other
