This paper itself is an instruction of how to set. This instruction paper helps you to hang GRAN BOARD on the wall by taping it.

2 Tape this instruction to the wall
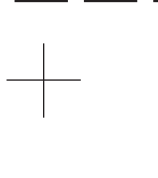

1 Measure 2m from the floor to this line

3 Put screws on the wall

Set GRAN BOARD

1 Set this dotted line on the instruction paper to be 2.0m from the floor.

※Please make sure both ends of this line to become 2.0m to keep the balance.
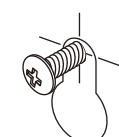

2 After setting a position, fix the instruction on the wall with tape after setting in position.

※Make sure don't let the instruction paper be slack. Otherwise screw might be set in inaccurate position. Please fix the paper with tape at all sides if it is slack. Be careful to take off adhesive tape for left tape and the ripped instruction paper.

3 Put screws at the cross each three points over the instruction paper.

※Don't put screws into the wall completely. Please make 6.0mm space between a screw head and the wall. Don't put screws into PLASTER wall. GRAN BOARD can be fallen from the wall.
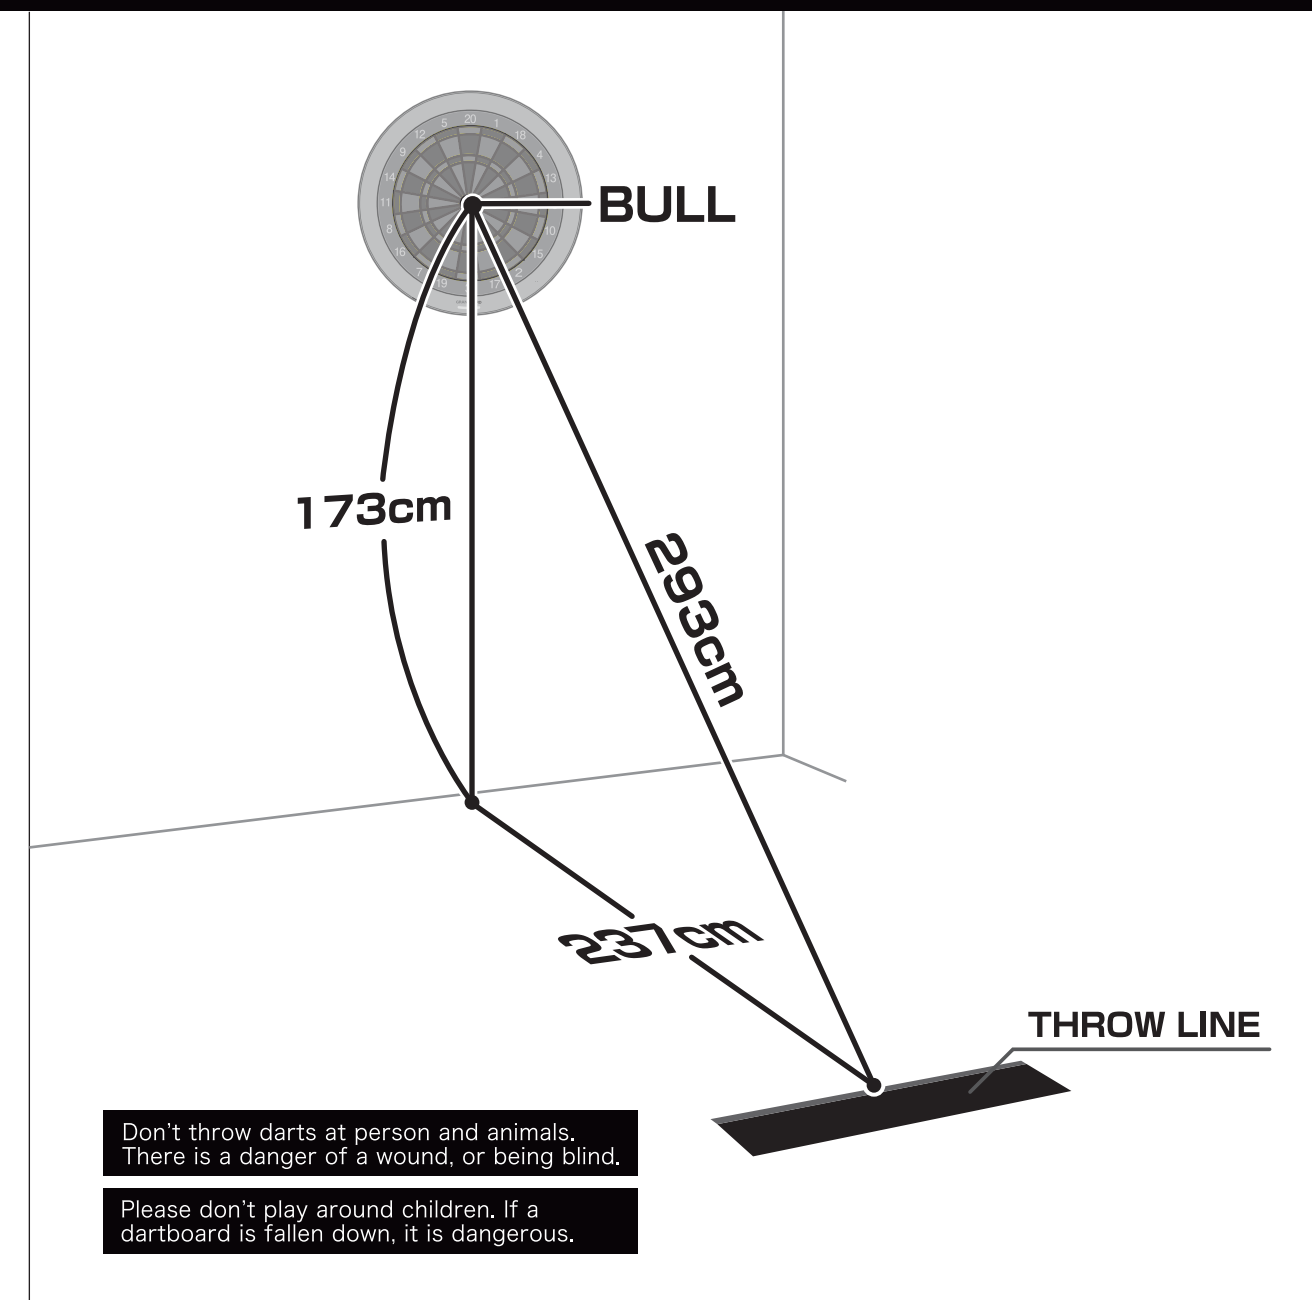

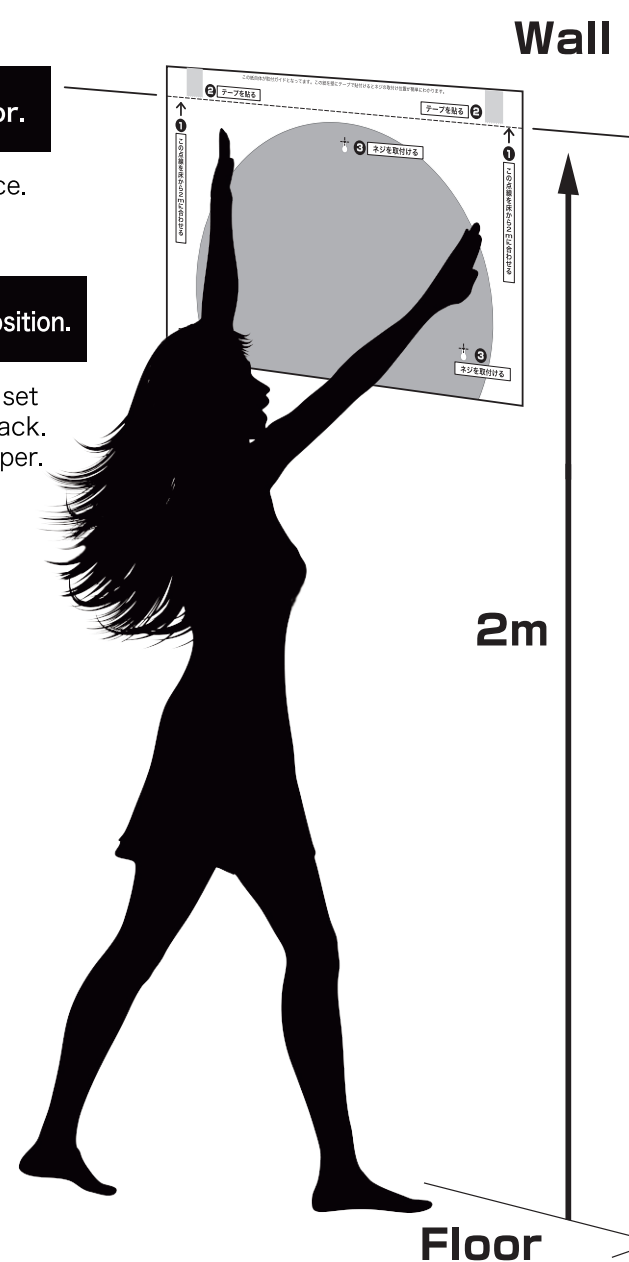

4 Please take this instruction off kindly.

※The back of this instruction is a rule book. When taking it off, please start at the parts that put screws in.

**Attention of Setting GRAN BOARD**

Please set GRAN BOARD not to distort the back cover. Setting GRAN BOARD with an inaccurate size partition causes distortion at the back cover. It might damage to sensor inside and cause malfunction and troubles.
